### ORIGIN OF SHAKTIMAAN

Shaktimaan received powers from seven gurus who trained and blessed him with "yogic shakti". He was the chosen warrior against evil by siddha gurus of catapult named *Suryanshi*. They are followers of the star *Sun*. As part of training he trained with *Kundalini Yoga* to waken the 7 chakras of body and gain 'super natural' powers from them. To gain complete control over his powers he performed the ritual of death. However, this did not cause death but made him more alive than when he was a normal man. He also performed *Yajna* in which he entered the fire himself and dissolved his body in fire. Then, the five elements of life, i.e. fire, wind, water, earth, sky revived his body giving him special powers from them. Thus after leaving his mortal body he was given a super human form to fight against the evil in the world as Shaktimaan.

After Shaktimaan was created he set out to destroy his archenemy *Kilvish*. But, as the Mahaguru explained, Kilvish can only be defeated after evil is destroyed. Shaktimaan's adventures show him pursuing justice and saving his friends while *Kilvish* and his minions plot to defeat him.

### POWERS OF SHAKTIMAAN

Shaktimaan has unlimited powers which lie inside his body in his seven chakras of Kundalini attained through mediation. Shaktimaan worships God through the symbol Om. Truthfulness is his motto. He can even separate his body into five different bodies of fire, wind, water, earth and sky. He can convert his body into light and can fly with the speed of light. He can shoot laser beams with his fingers and toes and other body parts and he can also stretch his hand and legs and other body parts very far. He is an expert at Judo, Karate, and other Martial Arts. He possesses the power of telepathy, teleportation, etc.

His only weakness is a crystal possessed by Tamraj Kilvish. This makes him powerless because it is filled with the evil of the world and is the source of the black powers. However, its effects are temporary.

### Shaktimaan's main powers are as follows:

1. Flight at the speed of light
2. Powerful vision
3. Ability to manipulate the 5 elements known to man
4. Ability to change his size voluntarily
